

School Teacher Mission Statement

As an educator, I strive to meet all students where they are at creating a safe and energetic workspace to learn 21st century career skills focused on the fashion industry. Showing empathy and kindness to every student is one example of how I lead by example inspiring students to create a community in the classroom. Regardless of background, sexual orientation, or level of learner, everyone is treated with dignity and care and provided with the tools needed through differentiated instruction to become successful.

School Building Leader Mission Statement

As a school building leader, using differentiated instruction, I will assist teachers with meeting the educational needs of students in a community where all can learn and become the best versions of themselves. By showing empathy and kindness to faculty, they too will become leaders in their classrooms showing the same to their students giving them the best opportunity to succeed. Throughout the building, I will create a community with students and staff that is welcoming, positive and respectful meeting students where they are at, building them up with support and encouragement.

School District Leader Mission Statement

At the school district level, my mission is to collaborate with stakeholders to develop strong supports for teachers. Through training programs on mental health, 21st century skills, social and emotional supports for students and use of current technology in the classroom teachers will have the tools to assist many types of learners. I will always keep in mind through my program creations how to meet the needs of students using empathy and kindness with an end goal of student success while supporting teachers.
